

KLOVE radion station is currently aired in the Phx area on an FM translator. This radio station serves me as a local resident in encouraging me and friends throughout the day. It brings Christ centered music and family friendly programs as well as helpful ideas and stories of how to improve in my walk with the Lord.

If this station were to be displaced by an LPFM, the local community would miss the positive effects of its attributes. The lack of spriritual accountability and sense of fellowship would be a great loss to those who are seeking love and joy.

The service provided by KLOVE radio station is in the public interest to uphold and keep as part of our community. It encourages people to love and respect each other and most of all, to acknowledge a God of love. These are the two most important things we, as human beings, could ever do!
